☆: Record high for the month of January

*1 JAMA (Japan Automobile Manufacturers Association Inc.) report basis (CBU)

*2 Local line-off basis

*3 JAMA report basis

< Production >

- Domestic production decreased year-on-year due to fewer working days. (Two days less than January last year)
- Overseas production significantly increased year-on-year, due to increased production capacity as well as the all-new Impreza's start of production in November 2016.

< Sales in Japan >

- Passenger vehicle sales increased year-on-year led by the all-new Impreza launched in October 2016.
- Mini vehicle sales slightly decreased year-on-year, as a decline in the Stella and Pleo sales offset sales of the all-new Chiffon launched in December 2016.

< Exports >

- Exports from Japan rose year-on-year led by increased shipments to North America and Australia.
