☆: Record high for the month of May

○: Record high for January-May period

**< Production >**

- Domestic production decreased year-on-year, as production of the Impreza for North America was moved from Japan to the U.S. and the Levorg and WRX models were at their model change timing.
- Overseas production significantly increased year-on-year, due to increased production capacity as well as the all-new Impreza's start of production in November 2016.

**< Sales in Japan >**

- Passenger vehicle sales increased year-on-year, led by strong demand for the all-new Impreza launched in October 2016 and the all-new Subaru XV launched in May this year.
- Mini vehicle sales increased year-on-year led by the all-new Chiffon which was launched in December 2016.

**< Exports >**

- Exports from Japan decreased year-on-year, as production of the Impreza for North America was moved from Japan to the U.S. and the Levorg and WRX models were at their model change timing.
